

## Science

How do we change as we grow older?

How do living things reproduce and how is this important in a lifecycle?

## ART

Use the work of Ansel Adams and Barbara Hepworth to create our own artwork.

## Geography

Focusing on the physical geography of the USA and Cornwall and how this has an impact on how humans settle and use the land.

## RE

Why do some people believe in God and some people not?

## PE

Looking at the skills needed to successfully play cricket and tennis.

## Maths

We will be extending our problem-solving skills through a range of different contexts. We will also develop our understanding of shape and statistics.

## English

Writing our own stories using what we have learnt this year.

Discussion – In the advancement of technology always a good thing?

## Music

Learning to play Samba instruments.

Learning songs for the Summer Production.

## Comparing Locations

What are the similarities and differences between Cornwall and the Western United States?

## French

Using what we have learnt to be able to speak confidently.

## PSHE/RSHE

Focusing on relationships: Do I need to look a certain way for people to like me?

## Computing

Combine the use of pens with movement to create interesting effects.

Change the position of objects between screen layers (send to back, bring to front).
